

AARDVARK

Clay & Supplies

“Working with Nara 5 is an absolute delight! Its stable smooth texture makes it perfect for creating small delicate pieces to that large statement piece. I love how versatile & forgiving it can be, allowing me to explore my creativity without limits. Obsidian clay is the yin to my yang. Its smooth texture feels like you’re throwing porcelain, and it is beautiful on its own, rarely needing a glaze. Marbling the two together is a match made in heaven. It truly elevates my pottery to a whole new level” -
