

MEET MAYCO'S Justin Reese

Mayco's newest designer, Justin Paik Reese, is this year's Headlining Artist demonstrating at NCECA. During Justin's demonstration, he will focus on his soda-firing roots, throwing a large piece with his signature intricate carvings. Justin will discuss his process, background, and journey to joining the Mayco team by introducing Mayco's newest glazes and how they are a great alternative to his soda-fired results. Be sure to attend Justin's demonstrations at NCECA and find him in the Mayco booth along with our all-star roster of guest artists! For more information, visit MaycoColors.com
