

**THERMAL LOGIC™
ELECTRICS**

Front Loaders

Track Shuttle

In a Bailey Thermal Logic, your elements will always be safe and secure.

The Best Element Holder System ever designed!

Bailey's patented hard element holders not only protect and shield the elements like no other, they enable maximum radiant heat transfer from the elements to the load. You make much better use of the radiant heat, extend the life of the elements, and reduce firing costs.

In a Bailey Thermal Logic, You will never see this!

Nothing equals Bailey Innovation.

Products Built to Last.

Bailey *Super-Insulated* Top Loading Electric Kilns

32% less heat loss compared to conventional electric kilns.

16 models with **energy saving design.**

Professionals Know the Difference.
