

GEIL KILNS

“The Heartbeat of Our Studio”

Pottery made by Derek Redding, Mike Stumbras, & Flux Students / Geil Kiln model: DLB-20 / Cone 10 Downdraft Gas Reduction

“At Flux, we fire in a DLB-20, a beautifully crafted kiln that has aged like fine wine. At 26 yrs. old our Geil has seen hundreds of firings with great results and remains as reliable as the day we christened her. The attention to detail, craftsmanship, & reliability of our kiln is second to none. It is the heartbeat of our studio.”-**Derek Redding**
Flux Studio Art School, Denver, CO / @fluxstudiodenver / fluxstudiodenver.com
