

AARDVARK

Clay & Supplies

"Working with **Nara 5** is an absolute delight! Its stable smooth texture makes it perfect for creating small delicate pieces to that large statement piece. I love how versatile & forgiving it can be, allowing me to explore my creativity without limits. **Obsidian** clay is the yin to my yang. Its smooth texture feels like you are throwing porcelain, and it is beautiful on its own, rarely needing a glaze. Marbling the two together is a match made in heaven. It truly elevates my pottery to a whole new level!" -
