Have you
seen our **NEW**
website &
catalog yet?

Valentina moved from Toluca, Mexico to Montreal, earning her Bachelor of Fine Arts degree from Concordia University in 2006. Her experience includes more than nine years dedicated to creating handmade tiles for public art mosaics. This work enriched her artistic journey, through her intricate and vibrant ceramic works.

Valentina teaches pottery, works as a studio technician, and dedicates time to personal projects. Current body of work is an exploration of larger wheel thrown pieces and layered surface design techniques.

“My relationship with Cone Art Kilns began in university and continues to this day. Throughout my career, two things have remained constant: my passion for ceramics and the reliable quality of Cone Art Kilns. Their performance and durability have supported every step of my creative journey.” - **Valentina Guevara**
