Having hand-made objects to prepare and cook in enhances the comforts of home and the time we spend with food and family. Preparing meals with friends and enjoying casual dinner parties is often the start of good conversation and enduring relationships. This book brings together handmade pots with home-cooked meals to both enhance and engage the gathered experience.

Separated into a day’s worth of meals starting with breakfast and ending in dessert, each chapter delivers step-by-step studio projects for making everything from ceramic pourover coffee sets to muffin pans, from taco trays to personal crocks, from loose-leaf teapots to wine stems. Each page is loaded with tips and techniques from professional makers to help you discover new forms and be successful in creating your own personal dinnerware.

Each how-to project is followed by a recipe personally chosen by the ceramic artist. Recipes include an ingredient list along with detailed instructions. Following the same format of a day’s meals, the recipes begin with breakfast, move onto lunch then snacks and tea, followed by happy hour, dinner, and finally dessert. The artists chose family favorites, comfort foods, simple beverages, and intricate dinner meals. Linking them all are fresh ingredients easily sourced and basic steps guaranteeing your success in the kitchen. Cheers!

Preface

As a maker, I often think about how basic skills are handed down from one generation to the next and I wonder if our crafting and domestic skills are getting lost as we become more of a consumer-based and service-orientated culture. It wasn’t that long ago that most people had the skills to tackle any project they wanted to, whether it was sewing, baking, wood refinishing, or canning. How many people still learn to iron or make jam? It used to be that if you had a task you needed to complete, there was almost certainly someone that was either a friend or family who could teach you the necessary skills. It was this collected wisdom that we relied on to not only provide for ourselves but also to have pride in our everyday accomplishments. We then, in turn, passed these skills onto the next generation to help keep our society balanced and self-sufficient.

The skills required to make a pot and to cook a meal are surprisingly similar. Both gather materials or ingredients, which are combined using a set of tools, and finally baked over a fire. Thus it is often a natural fit for potters to enjoy cooking. To be able to create something that enhances their craft also brings them great pride. Additionally, the use of one’s pots is a great way to learn how well they function. How does the rim of a cup feel when pressed against a lip? How well does the handle of a pitcher work once the pitcher is filled? Will flatware leave dark marks on a white liner glaze? Does the foot of a trimmed bowl scratch the finish on a table? It is through use that potters enhance their skills as they develop a more acute sense of weights and proportions, surfaces and sizes.

This book is a collection of skills offered by a handful of creative potters to help readers create homemade meals and the handmade functional ware to serve them in. From faceting, darting, and slumping to Thai curry, chorizo stuffing, and cucumber gimlets, each page provides how-to ceramic demonstrations followed by personal recipes and instructions. This is a book filled with ideas and skills to help keep our community robust with talented makers.

CHAPTER ONE
Breakfast

4 Pourover Coffee Set by Eva L. Champagne
   RECIPE: Pourover Brew Coffee by Eva L. Champagne

7 Sugar Jar with Square Lid by Jared Zehmer
   RECIPE: Chocolate Chai Coffee Mix by Jared Zehmer

11 Citrus Juicer by gwendolyn yoppolo
   RECIPE: Morning Star Juice by Holly Goring

16 Pinched Breadbox by Jeni Hansen Gard
   RECIPE: Bodil’s Rugbrød Danish Rye Bread by Jeni Hansen Gard

20 Spouted Batter Bowl by Courtney Long
   RECIPE: Banana Chocolate Chip Pancakes by Courtney Long

25 Custom Muffin Pan by Sumi von Dassow
   RECIPE: Parmesan Hash Brown Cakes by Sumi von Dassow

CHAPTER TWO
Lunch

30 Pocket Handle Pitcher by Joseph Pintz
   RECIPE: Watermelon Agua Fresca by Joseph Pintz

34 Picnic Set by Sumi von Dassow
   RECIPE: Edamame Dip by Sumi von Dassow

37 Faceted Bowls by Guillermo Cuellar
   RECIPE: Nelson’s Massaged Kale Salad by Guillermo Cuellar

40 Ribbed Oval Bowls by Elisa Helland-Hansen
   RECIPE: Quinoa Salad by Elisa Helland-Hansen

45 Handbuilt Textured Teapots by Sarah Pike
   RECIPE: You-Build-It Salad Rolls by Sarah Pike

50 Paul Eshelman’s Handled Soup Bowl by Hannah Marshall
   RECIPE: Winter Vegetable Soup by Jennifer Harrison

55 Wall-to-Wall Decorated Platters by Colleen McCall
   RECIPE: Lighter Pulled Pork Sandwiches by Colleen McCall
CHAPTER THREE
Snack and Tea

62 Loose-Leaf Teapots by Clay Cunningham
RECIPE: Cool Breeze Loose-Leaf Tea and Summer Salad by Clay Cunningham

67 Honey Jar by Sumi von Dassow
RECIPE: Honey Syrup by Sumi von Dassow

70 Lidded Tea Cup by Rachel Donner
RECIPE: Chai Tea by HP Bloomer

75 Ahjoshi Hanbok Canisters by Mea Rhee
RECIPE: Spice Cookies by Mea Rhee

79Thrown and Decorated Teapot by Doug Peltzman
RECIPE: Super Moist Banana Bread by Doug Peltzman

CHAPTER FIVE
Dinner

118 Lidded Boxes by Martha Grover
RECIPE: Creamy Potato, Leek, and Broccoli Soup by Martha Grover

122 Comfort Food Bowls by Didem Mert
RECIPE: Thai Coconut Curry Soup by Didem Mert

125 Taco Night Taco Trays by Mark Cole
RECIPE: Tacos by Mark Cole

128 Upcycled Utensils by Kristin Pavelka
RECIPE: Kristen’s Favorite Pasta by Kristin Pavelka

133 Slumped and Altered Serving Dishes by Nancy Gallagher
RECIPE: Cornbread Chorizo Stuffing by Nancy Gallagher

137 Moroccan Tagines by Sumi von Dassow
RECIPE: Spicy Kefka with Tomato Sauce by Sumi von Dassow

141 Bryce Brisco’s Serving Platter by Yoko Sekino-Bové
RECIPE: Orange Bourbon Glazed Chicken Statler with Yukon Gold Potato Hash by Bryce Brisco

145 Personal Bakers by Caleb Zouhary
RECIPE: Seafood Alfredo Lasagna by Caleb Zouhary

CHAPTER FOUR
Happy Hour

86 Olive Trays by Sumi von Dassow
RECIPE: Dolmades by Sumi von Dassow

88 Footed Slab Plate by Liz Zlot Summerfield
RECIPE: Roasted Strawberry Bruschetta by Liz Zlot Summerfield

91 Colored Clay Slip-Cast Cups by Peter Pincus
RECIPE: G & T by Holly Goring

95 Sipping Service by Mike Jabbur
RECIPE: Mojito by Mike Jabbur

99 Elegant Goblet by Yoshi Fujii
RECIPE: Cucumber Lime Gimlet by Yoshi Fujii

104 Shot Glass Set by Brice Dyer
RECIPE: Boulevardier by Brice Dyer

108 Whiskey Bottles and Cups by Matt Schiemann
RECIPE: Fall Forward by Matt Schiemann

112 Calla Lily Wine Stem by Marion Peters Angelica
RECIPE: Ann-Charlotte’s Glüg by Marion Peters Angelica

CHAPTER SIX
Dessert

150 Belly-Bottomed Cups by Birdie Boone
RECIPE: Homemade Hot Chocolate with Homemade Marshmallows by Birdie Boone

155 Paul Donnelly’s Snack Tray by Annie Chrietzberg
RECIPE: New York Style Cheesecake by Paul Donnelly

159 Double-Walled Cast Ice Cream Server by Hiroe Hanazono
RECIPE: Matcha Ice Cream Sundae with Shiratama Dango by Hiroe Hanazono

164 Pinch-Formed Cake Stand by Ingrid Bathe
RECIPE: Coconut Layer Cake by Ingrid Bathe

168 Fluted-Rim Bundt Pan by Sumi von Dassow
RECIPE: Gluten-Free Banana Cake by Sumi von Dassow
Custom Muffin Pan
by Sumi von Dassow

For years I resisted making a muffin pan out of clay. Too complicated, I thought. Well, I finally had to try it and I found out that while complicated, it’s also fun, good practice, and an attention-getter. Muffins bake well in a stoneware muffin pan and a bonus is you can make a pan with however many cups you want.

I make my muffin cups to fit a standard paper muffin cup, which is 2 inches wide at the bottom and 1 ¼ inches tall. For each cup, I set my calipers to somewhere between 2¼ and 2½ inches for the bottom measurement and I use a ruler to make the cup about 1½ inches deep. It doesn’t need to be perfect. A paper muffin cup will fit even if it isn’t exact.

SEVEN IDENTICAL CUPS
To make a seven-cup pan, prepare seven, 6-ounce balls of clay. Throw a flat-bottomed bowl with the first small ball, using a bat, and set the calipers inside to get the bottom measurement to 2 inches. You don’t want to trim a foot on each cup, so make it flat inside and leave the floor only ¼ inch thick. Pull the walls up to about 1¾ inch high—that’s the outside measurement, so the depth inside will be about 1½ inches. Throw the rest of the cups to match this one (1).

If you want to throw the cups off the hump, you can, although you’ll probably have to trim them. Start with a 3½ pound ball of clay. As you throw each cup, measure the bottom with the calipers and measure the height by making a Japanese tool called a tombo (2). To make a tombo, use a twist tie to join two popsicle sticks into a cross shape. Adjust it so that one end of one stick is 1½ inches long. You can now lay the other stick across the rim of the freshly thrown cup with the 1½-inch-long end pointing down into the cup. If the cup is the right height, the end of the stick will just touch the floor of the cup.

Arrange cups on the underside of the slab. Use a decorating disk to space them evenly.

Throw seven muffin cups to the exact same width and height.

Use a Japanese tombo to measure the muffin cups if you throw them off the hump.
the cup. You can also mark the cross pieces to measure the diameter of the rim.

**THROWING A SLAB TOP**

Throw a slab for the top of the pan with 3¼-pounds of clay. It needs to be about 10½–11 inches wide, allowing for ½ inch between each cup and another ½ inch around the edge. Using a 12-inch bat, center your clay, and spread it out wider with the heel of your hand until it’s almost the full width of the bat and a consistent ¼ inch thick across the whole slab. Once it’s even and compressed, run the point of a wooden tool under the edge of the slab and lift it slightly, then use a sponge or a chamois to smooth around the rim.

Allow all pieces to dry to slightly softer than leather hard. Run your wire under the slab, flip it over, and use a rib to smooth the bottom.

**ATTACHING THE CUPS**

Place a sheet of plastic or newspaper under the slab so it won’t stick to the bat as you attach the cups. Next, arrange six cups on the slab in a hexagon with the seventh cup in the center. Use a decorating disk to help arrange them symmetrically (3). Now draw around each cup with a needle tool, then lift each cup one at a time and cut on the line you drew (4). Brush slip or magic water around the rim of each cup and inside the cut-out circle, then push the cup into the opening. Repeat for all seven cups, then wrap a small coil around each one and blend it into all surfaces (5).

Flip the muffin pan over and clean up the top side. Fill in any small gaps and then smooth everything together (6). Be very attentive to detail and don’t use too much water. Now flip the pan back over onto a clean, absorbent surface and dry it slowly upside down, so the slab won’t warp.

**ALTERNATIVE FOUR-CUP PAN**

To make a smaller four-cup muffin pan, throw a 9-inch round slab using 2 pounds of clay, and attach four evenly spaced cups. You can cut the outer edge off between each pair of cups to square the rim and give it a more traditional design. When you flip it right side up, use a Surform rasp to smooth the cut rim (7).

**GLAZING**

The muffin pan can be a difficult form to glaze by pouring or spraying. So to glaze the seven-cup muffin pan, pour glaze into a wide, shallow pan and hold the muffin pan by the edges to dip it. Then hold the pan upside down to dip the entire face into a second glaze.
PARMESAAN HASH BROWN CAKES

by Sumi von Dassow

For best results be sure to squeeze the excess moisture from the raw potatoes until they are very dry, don’t add too much cheese, and don’t skimp on the olive oil.

**Instructions:**

Combine all ingredients in a bowl and mix with a fork. Coat each muffin cup with olive oil. Spoon mixture evenly into cups and pack tightly.

Bake at 350°F for 60–75 minutes. Let rest for 5 minutes and carefully loosen with a thin knife. Gently lift each potato cake out and serve bottom side up.

Serve with salt, pepper, and ketchup.

---

**Ingredients:**

- 3½ cups shredded russet potatoes, rinsed and squeezed dry
- 3 green onions, chopped (approximately ¹⁄₃ cup), including green stems
- ½ cup grated Parmesan cheese
- 1 teaspoon sea salt
- ½ teaspoon black pepper
- 2 tablespoons olive oil plus more for greasing muffin cups
